

Komen Fund for Breast Health Care Grant Recipients:

AltaMed Health Services

(P): 714.500.0303 • www.altamed.org

AltaMed Health Services has multiple clinics in Orange County that participate in the Komen Fund for Breast Health Care. These clinics see an average of 400 women through this program each year. AltaMed Health Services provides comprehensive and compassionate diagnostic breast health care.

Hurtt Family Health Clinic, Inc.

(P): 714.247.0300 • www.hurttclinic.org

Women in need of breast cancer diagnostic services are seen at the Hurtt Family Health Clinic, located in Tustin where homeless and impoverished families can live for a period of time to rebuild their lives. The Hurtt Family Health Clinic is dedicated in working with Orange County's most vulnerable populations.

Nhan Hoa Comprehensive Health Care Clinic

(P): 714.539.9999 • www.nhanhoa.org

Nhan Hoa Comprehensive Health Care Clinic has been serving the community for over 18 years, and maintains the trust of the Vietnamese community to provide comprehensive and quality clinical care services in a culturally sensitive and compassionate manner.

Planned Parenthood of Orange and San Bernardino Counties

(P): 714.633.6373 • www.pposbc.org

Women with breast health concerns are seen at Planned Parenthood of Orange and San Bernardino Counties. There are multiple clinical sites throughout Orange County to ensure immediate access for women.

Serve the People Community Health Center

(P): 714.352.2905 • www.serve-the-people.com

Serve the People Community Health Center is located in a federally designated, "Medically Underserved Area" in Santa Ana. Serving the most impoverished, the health center provides a range of health services to area residents, and with this grant will be able to provide diagnostic breast care to underserved women

Share Our Selves Clinic

(P): 949.270.2100 • www.shareourselves.org

Although new to the Komen Fund for Breast Health Care Program for 2012, Share Our Selves (SOS) Clinic has been serving the breast health needs of the community since 2005. Located in Costa Mesa, SOS provides uninsured, low-income, linguistically-isolated, and underserved women culturally appropriate and compassionate breast health care.

UC Irvine Medical Center

(P): 714.456.2936 • www.cancer.uci.edu

Chao Family Comprehensive Cancer Center

Chao Family Comprehensive Cancer Center is one of the clinical providers that see the largest number of patients seen through the Komen Fund for Breast Health Care. They are passionate and committed to ensuring that women get the breast health services they need.

Community Grant Recipients:

AltaMed Health Services

(P): 714.500.0303 • www.altamed.org

Breast Cancer Early Detection and Care Program

The *Breast Cancer Early Detection and Care Program (BCEDCP)* improves access to timely screening, re-screening, diagnosis, and treatment services through language-appropriate case management and patient navigation services for women identified as at-risk of rarely or never screened for breast cancer.

Asian American Senior Citizens Service Center

(P): 714.560.8877 • www.aascsc.org

Breast Cancer Awareness and Prevention Program (BCAPP) to the Uninsured Chinese American Women

The Asian American Senior Citizens Service Center (AASCSC), a leader in the Chinese community of Orange County aims to provide breast health education, access to free/low-cost breast cancer screenings, and patient services in order to improve screening behaviors of uninsured Chinese American women that have rarely or never been screened.

Breast Cancer Solutions

(P): 866.960.9222 • www.breastcancersolutions.org

Enabling Access: Medical and Financial Aid Program

The Enabling Access: Medical and Financial Aid Program will ensure no individual forego breast cancer treatment because of an inability to pay for out-of-pocket medical expenses such as health insurance premiums, COBRA payments, medication and insurance share of cost. In addition, Breast Cancer Solutions will provide financial assistance to help cover rent/mortgage and other life-supporting expenses for breast cancer patients who are unable to work due to treatment.

Latina Breast Health Support Program Specialist

Breast Cancer Solutions will empower Latina women to take control of their breast cancer treatment and enable linkage to necessary resources through their Latina Breast Health Support Program Specialist Initiative. This grant will improve their capacity to provide culturally relevant and language-appropriate patient navigation services for patients with limited English-speaking abilities.

Hurtt Family Health Clinic, Inc.

(P): 714.247.0300 • www.hurttclinic.org

Access to Care and Treatment (ACT) Now Project

The Hurtt Family Health Clinic serves as a medical home to many that are homeless and underserved. The ACT Now project aims to provide breast health education, screening, and diagnostic services for women in crisis who cannot otherwise obtain and afford medical services.

Community Grant Recipients:

Laguna Beach Community Clinic

(P): 949.494.0761 • www.lbclinic.org

LBCC's Breast Care Commitment Program

Laguna Beach Community Clinic (LBCC) has been meeting the medical needs of the underinsured and uninsured for over 30 years. The clinic provides direct access to breast health care services, such as clinical breast exams, patient navigation, and mobile mammography for underserved women who live and work in south Orange County.

Latino Health Access

(P): 714.542.7792 • www.latinohhealthaccess.org

Salud de Seno/Breast Health Program

Latino Health Access' Salud de Seno Program will provide breast health information and increase access to screening services for low income Latino women residing in key geographic areas of Orange County. By utilizing trained Promotores (or Community Health Workers) as an effective approach to actively link women to mammography screenings, Latino Health Access also aims to provide case-management services that are culturally and linguistically appropriate for women that live in areas that are evidenced as severely underserved.

Nhan Hoa Comprehensive Health Care Clinic

(P): 714.539.9999 • www.nhanhoa.org

Breast Health Services for Low-income/Uninsured Young Women

Nhan Hoa Comprehensive Health Care Clinic provides comprehensive and affordable medical services to the Vietnamese community in Orange County. Their project aims to meet the breast health needs of low-income, uninsured Vietnamese women that are under 55 years old in key geographic areas such as Anaheim, Garden Grove, Santa Ana, and Westminster.

Pacific Islander Health Partnership

(P): 714.571.4941 • www.pacificislanderhealthpartnership.net

Pacific Islander Navigator Breast Health Project

Pacific Islander Health Partnership (PIHP) has been serving the Native Hawaiian and Pacific Islander community for the past 8 years, ranging from education and training to research and advocacy. PIHP aims to minimize cultural and linguistic barriers through outreach and education. In addition, PIHP will provide patient navigation in order to improve access to breast health care services for Chamorro, Marshallese, Native Hawaiian, Samoan, and Tongan women in Orange County.

Planned Parenthood of Orange and San Bernardino Counties

(P): 714.633.6373 • www.pposbc.org

Breast Health Program

Planned Parenthood of Orange and San Bernardino Counties' (PPOSBC) Breast Health Program is committed to promote risk-reduction and early detection behaviors among women that are under 40 years of age by providing educational seminars on breast health, patient navigation that is culturally-sensitive, and referral services to patients with breast abnormalities in an effort to fill the gap where the needs exist in Orange County.

Community Grant Recipients:

Serve the People Community Health Center

(P): 714.352.2905 • www.serve-the-people.com

Women's Wellness Clinic

The Women's Wellness Clinic at Serve the People Community Health Center located in a federally designated, "Medically Underserved Area" in Santa Ana will increase access to breast cancer screening, education, and early detection services for Latina women that are low-income and uninsured.

Share our Selves (SOS)

(P): 949.270.2100 • www.shareourselves.org

Women's Health Initiative

Share Our Selves (SOS) has been serving as a pivotal safety-net for nearly 40 years to Orange County residents that lack essential needs such as medical and dental services, as well as financial assistance and counseling programs. The Women's Health Initiative provides a medical home for low income women and provides extensive breast health screening, education, care coordination and case management, and specialty referrals for breast cancer.

The G.R.E.E.N. Foundation

(P): 714.507.0338 • www.thegreenfoundation.net

Act NOW: Be Self Empowered Breast Health

The G.R.E.E.N. Foundation was established on the premise to Gather Resources; Educate; Empower; and Network to improve the health and well-being of African Americans residing in Orange County. The goal of their program is to improve breast health outcomes within the African American community by using innovative approaches to outreach and educate women to *be self empowered* to obtain breast cancer screening services in an effort to encourage the practice of early detection.

Vietnamese American Cancer Foundation

(P): 714.751.5805 • English: www.vacf.org
Vietnamese: www.ungthu.org

Breast Health Navigation and Education Program

The Breast Health Navigation & Education Program strives to ensure that every Vietnamese American woman receives breast health services regardless of language proficiency, income, age, or insurance status. This program brings awareness, breaks cultural and language barriers, promotes early detection by providing linkage to breast cancer screening services, and provides a forum to discuss breast health care and cancer survivorship.

YWCA North Orange County

(P): 714.871.4488 • www.ywcanoc.org

Early Breast Cancer Screening and Education Program

The YWCA North Orange County has the largest, mobile, multiethnic early breast cancer screening and education program in Orange County. This program makes quality breast cancer screening and breast health awareness available to underserved, uninsured, multiethnic women in their own neighborhoods, in their own languages, and in a manner that is sensitive to their cultural beliefs.
